## 🐭 Modeling clay(funny mice) 🐭

🐭 Materials:

- 1.p-clay (polymer clay:brown,white,red)
- 2.knife
- 3.Toothpicks

🐭 Method:

**First** cut brown p-clay off by using knife. **Be careful** when use it.  
 You **need to** select brown clay to formed the body naturally.  
**Then** prepare to mold some clay round and flat like the mice's ears.  
**Next** join one ear on the top.  
**After that** using knife chop the toothpicks slightly preparing to make the whiskers.  
**Check** that the whiskers is thin.  
 Combine the whiskers before stick on a pair of round white eyes.  
 You **should** put the other ear later. Mold the white paws and one red tail.  
**Finally** stick all parts to the body.
